
160.30**Local Agency Funding and Caseload Allocation Method**

**Local agency
funding
formula**

The level of Nutrition Services and Administrative (NSA) funding for local agencies is determined by two components. The table below lists the components, their relative proportion in the NSA funds available to local agencies, and the basis for allocation.

Component	Percent	Basis for allocation
Base funding	7.5	Each county is awarded an equal share of funds.
Caseload performance	92.5	Each agency is awarded funds based on the agency's actual participation.

**Caseload
allocation**

The caseload allocation for the next fiscal year is based on actual caseload performance from October through **December** of the current fiscal year.

**Mid-year
reallocations**

Mid-year funding and caseload reallocations are based 100 percent on actual participation for the current fiscal year.
